Back to Top 

01: Start a New Board

Blank

Start with a completely blank board.

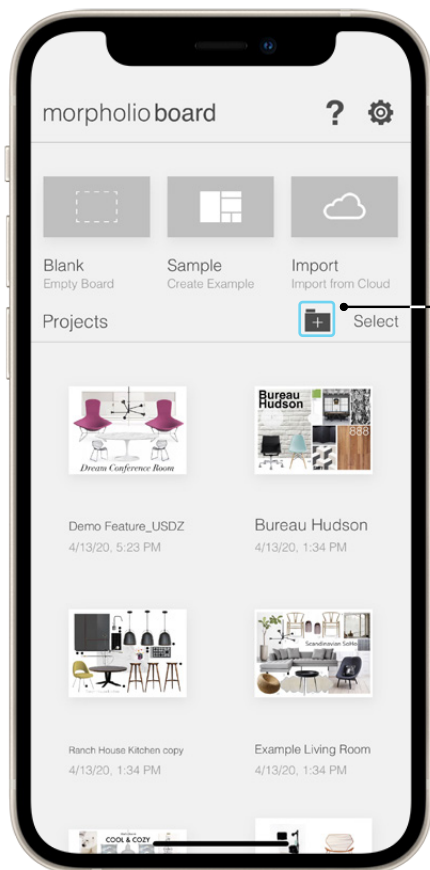

Sample

Start with an inspiration board curated by Morpholio.

Import

Import a .morpholioboard file from cloud storage.

01: Start a New Board

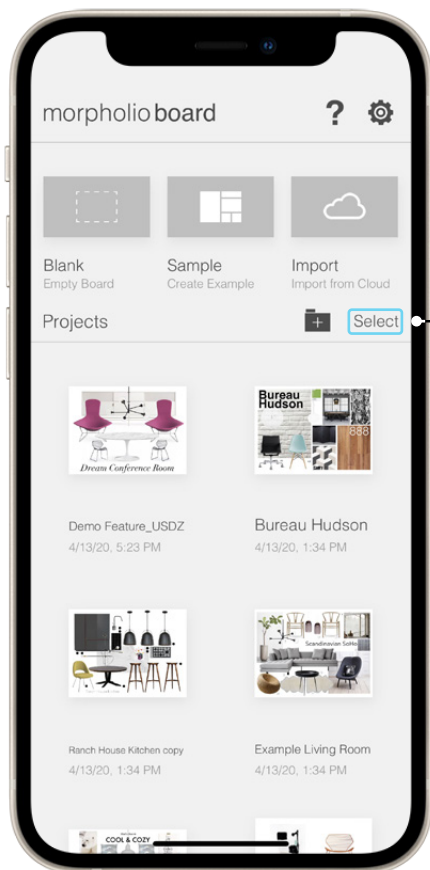

Folders

Create a new folder.

You can organize boards by placing them inside folders. Folders can also be placed inside folders.

Note: Learn more about folders in [Your Boards](#) section.

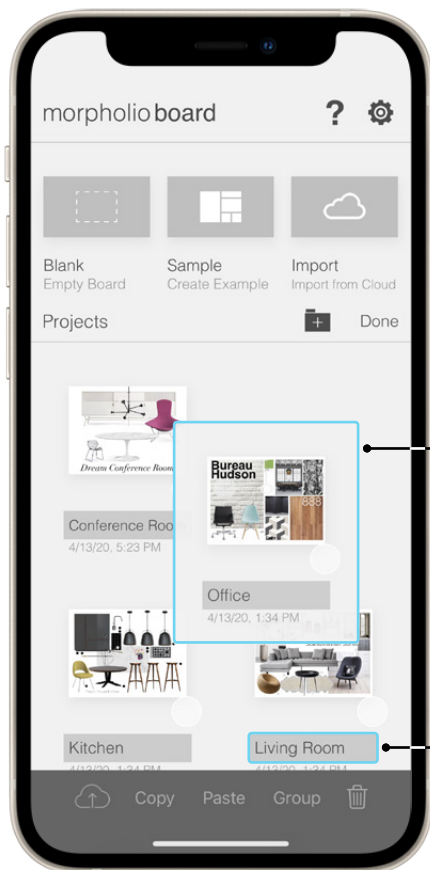

02: Your Boards

Board Management Mode

Tap “Select” to enter Edit Mode. Tap “Done” when finished. In this mode, you can duplicate, copy, paste, group, or delete your boards.

02: Your Boards

Arrange Projects

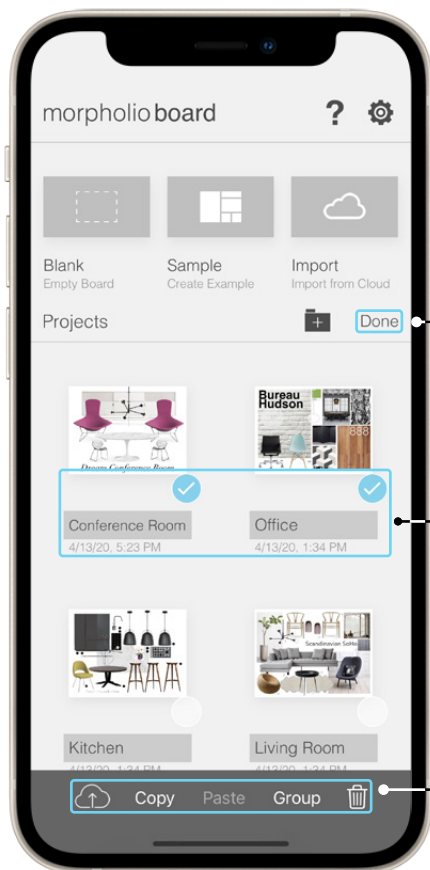

Press and hold boards to rearrange.

Change Project Title

Tap the project title to rename your board.

Back to Top 

02: Your Boards

Exit Board Management

Tap “Done” to close project management.

Select Multiple Boards

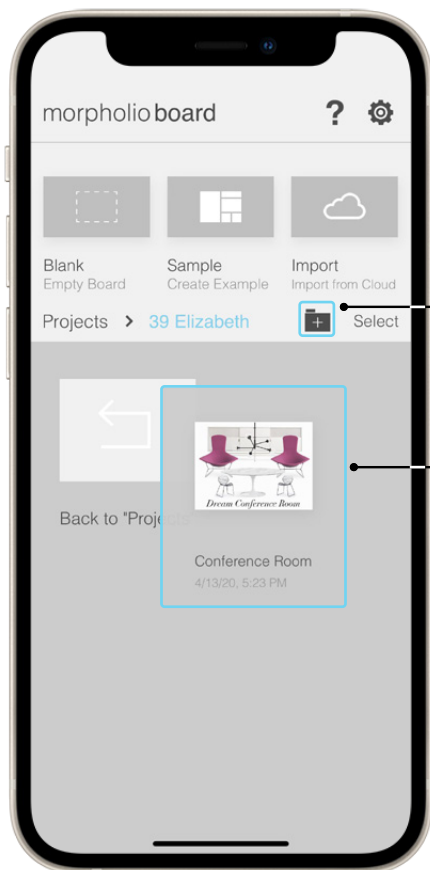

Tap the circle to select single or multiple boards to manage.

Edit Boards

Export, Copy, paste, group, or delete boards.

Back to Top 

02: Your Boards

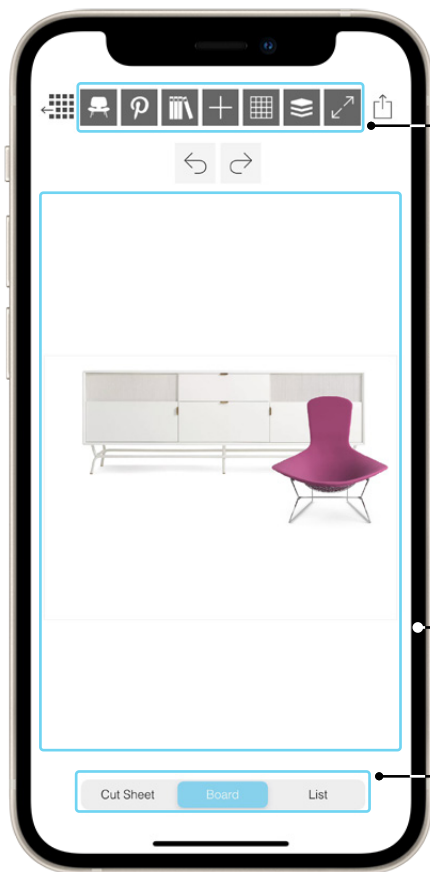

Return to Outside Folder

Tap to return to the outside folder.

Move Boards Back

Press and hold, then drag board to "Back to ..." to move board to outside folder.

03: Basic Controls

[How to video >](#)

Board Toolbar

All your moodboard super tools are here!

See the [Products Library](#), [Pinterest](#), [Your Custom Library](#), [Adding Images](#), [Grids & Background](#), [Layers](#), and [Presentation Mode](#) sections for more.

Board Workspace

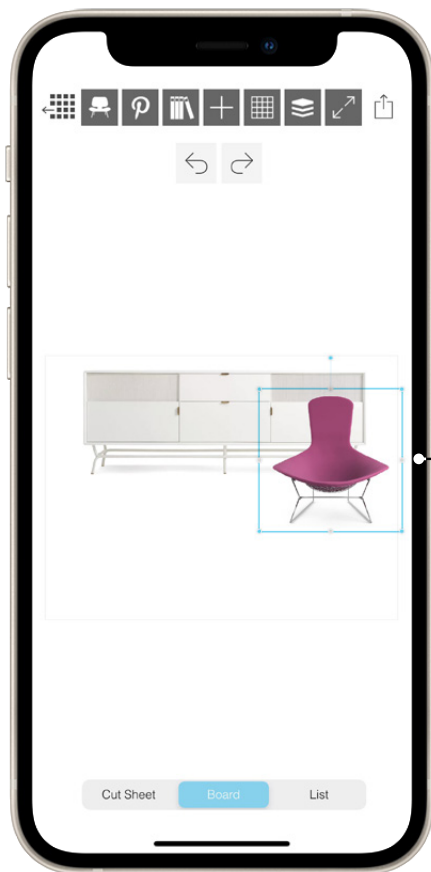

Layout and design your board here!

Ava

Automated Visual Assembly Controls. See [Ava](#) section for more.

[Back to Top](#)

03: Basic Controls

Resize Images

Resize your image using the corner and side nodes or rotate it using the rotation antenna.

03: Basic Controls

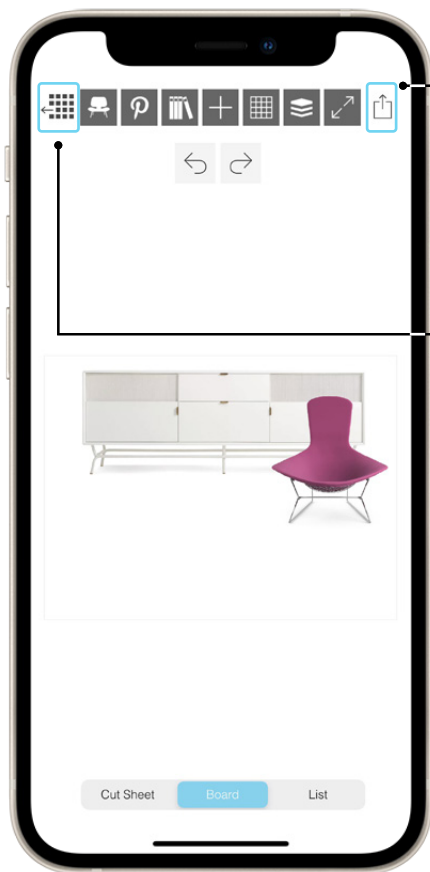

Multi-Select

Toggle Multi-Select on to move, copy, scale, rotate, or delete multiple items at the same time.

When you're done editing multiple items, tap Single-Select to only chose one item at a time.

03: Basic Controls

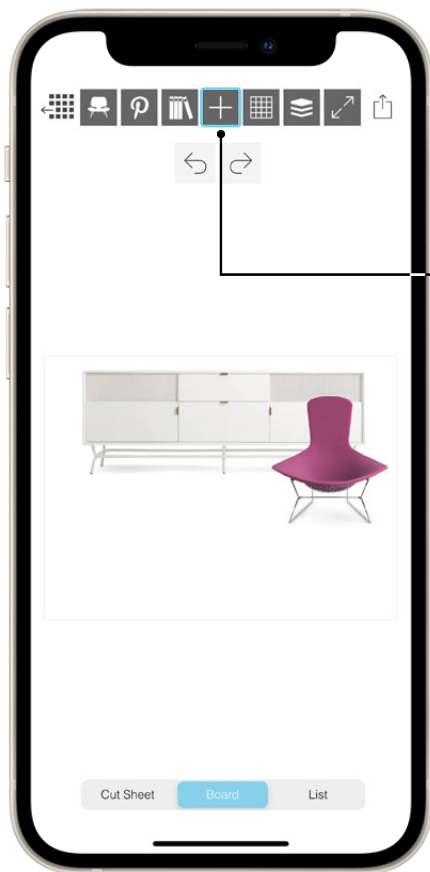

Export

Save and share your boards, cut sheets, and lists. See [Export](#) section for more.

Return to Project Page

Exit current Board and return to the project page.

04: Adding Images

Graphics

[How to video >](#)

Drawing

[How to video >](#)

Add Items

Add images from your Photos Library, Camera Cloud Drives, or use the [Web Clipper](#).

You can also add Swatches, Drawings, and Text!

04: Adding Images

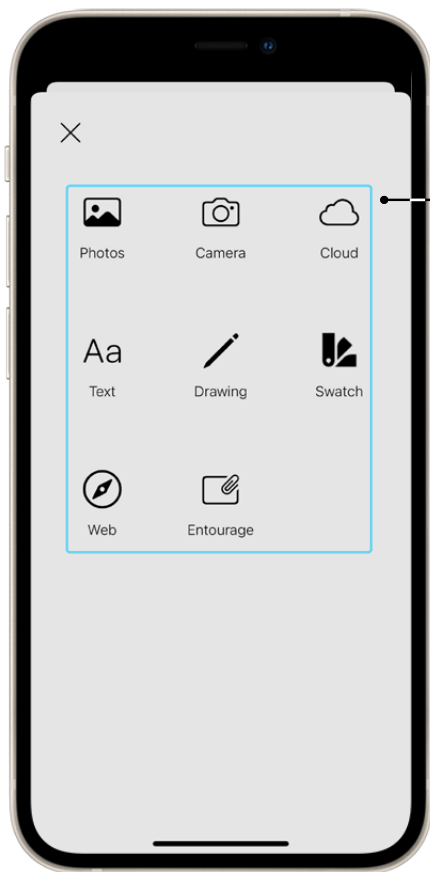

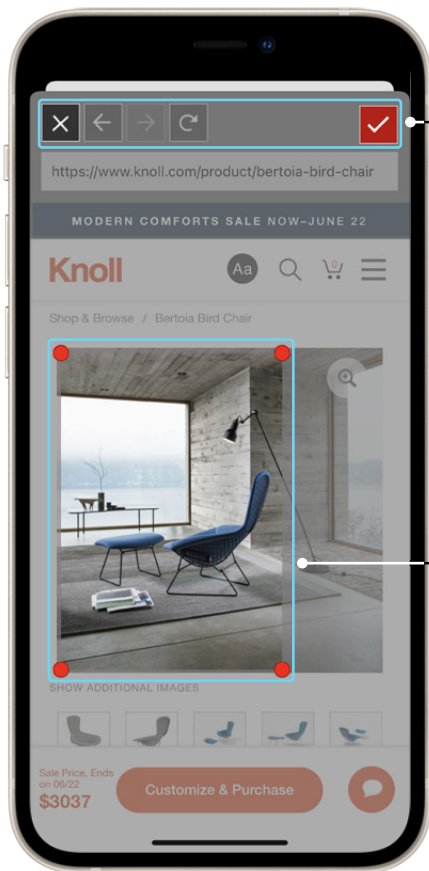

Image Sources

Add images from your Photos Library, Device Camera, or Cloud Drives.

Use the [Web Clipper](#) to crop images from any website!

Add [Swatches](#), [Text](#), [Drawing](#), and [Entourage](#) to your Boards.

04: Adding Images

Activate Web Clipper

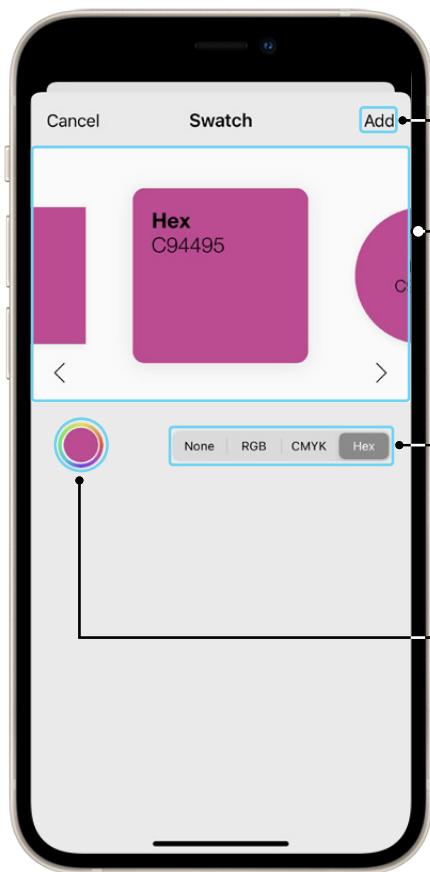

Tap red crop icon to activate clipping mode.

Tap the red check again to insert your web clip into your board!

Clip Website Image

Press and drag red dots to select the area to clip.

04: Adding Images

Add Swatch

Insert swatch into board.

Change Swatch Shape

Swipe or tap arrows to switch shapes.

Swatch Label

Select RGB, CMYK, or Hex code to add to swatch.

Color Selector

Choose a color for your swatch.

04: Adding Images

Input Text

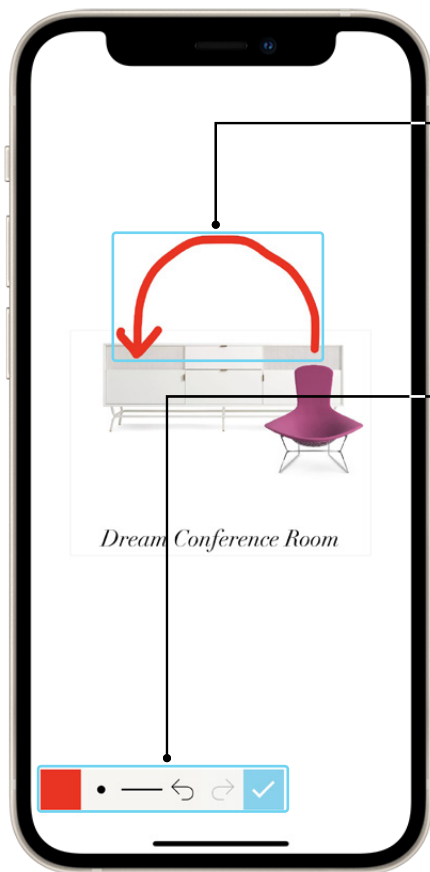

Add titles, comments, and descriptions to your board!

Edit Text Appearance

Edit text color and font.

When you're done, tap the check to confirm your text!

04: Adding Images

Sketch!

Use Apple Pencil or one finger to press & drag to sketch over your board.

Clip Website Image

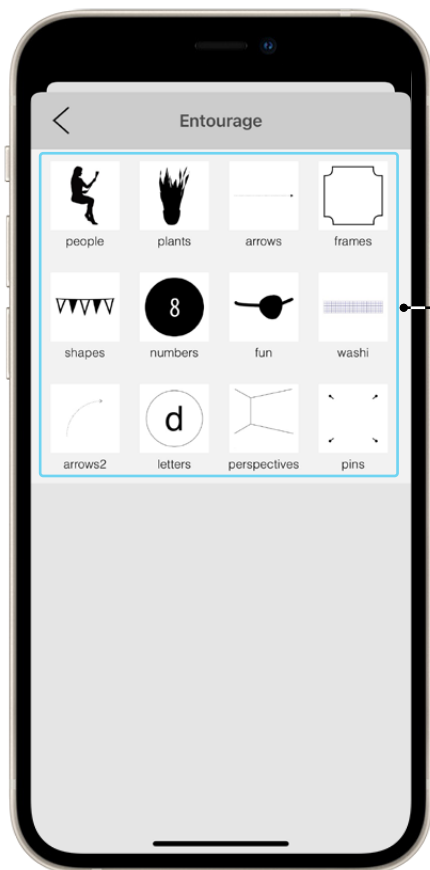

Edit the color, line weight, and line type of your lines.

You can also undo or redo your drawing.

When you're done sketching, tap the check to insert your sketch into your board.

Back to Top 

04: Adding Images

Entourage

Choose from Morpholio-designed graphics to add to your board including people, arrows, shapes, and numbers.

05: Grids & Backgrounds

[How to video >](#)
